BISAC: Juvenile Fiction / Readers / Beginner

This story happened one day as Dad made pancakes by the stove. Vickie and Jay asked: "Dad, who invented Pancakes and Syrup"? Dad did not have an answer so he made up this story to keep Vickie and Jay busy while they waited for breakfast. A delightful fantasy story about Sir Up, who discovers Syrup.

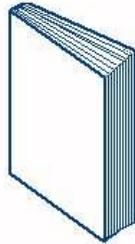

About the author:

Pastor Captain Daniel W. Merrick, Ph.D. is a radio and TV host and the father of seven children. Dr. Merrick started writing books after having been disabled and was unable to work in the Army any more due to his service connected injuries. Dr. Merrick keeps active in his own business, in ministry, and in publishing from his home office where he writes his books. You can have Dr. Merrick visit your school library and sign you copy of this book by visiting his web site at www.SirUpSirDown.com For School Projects:

Build A Book Inspire Program

- Teaches Children How Books are made
 - Inspires Reading and Creativity
- Helps Raise Funds for School Organizations

How do you get children to fall in love with reading? Make them the authors! Build A Book Inspire program sponsored by *Eternal Light & Power Company Publishing* helps you every step of the way to build a book that your children write, illustrate, and sell to raise funds for your parents and teachers organization. All proceeds for the book program go to charity so the program establishes and inspires children to get involved with the community while they write the book. Program designed to help promote team work, cooperation, and class room participation. Each book will be sold by your children once it is completed. The book will also be available on Amazon.Com and will continue to help charity and your organization on Amazon for one year. The book and story are written in your classroom with the teacher where pictures and the story are organized into Word.Doc format. Then Inspire publishers put your book into print format and make the book available for sale by your organization and the children. An Authors page is added at the back of the book to display the class in a group photo with their names listed as the authors and the class teacher as the editor. The program is designed to fit a single classroom or multiple classrooms all in one book. Minimum pages are 24 and retail pricing is subject to content and printer costs. Once your book is ready for print the publisher will give you a break down of the total costs and profit for your organization. A standard full color 24 page 8' X 10' Paperback costs \$7.85 each. If you retail your book for \$12.95 your organization would earn \$5.10 each book. As you increase pages your base cost from the printer is increased. *Eternal Light & Power Company Publishing* charges from sales proceeds a one time fee of \$49.95 which is \$2.00 per student for a 25 child class. Reading Works Grants are available for classrooms of less than 25 students to help with the costs of initial program fees. A minimum order of 25 books per project is required. Projected project time from creation to printed product is 30 to 60 days. A proof copy is provided to each project for review before final print. Books are maintained on Amazon.com for one year and all sales proceeds forwarded less costs to your organization.

For more information or to schedule a build a book project contact Daniel Merrick at 814-887-5895 or email Daniel@DanielMerrick.Net
